MAD RIVER UNION

ARCATA — After an arduous couple of years sculpting the General Plan 2045 and its Gateway Area Plan (GAP) element, Arcata planners and decision-makers are moving to finally approve it all this year.

Last week, the City Council considered the De-

cember 2023 draft General Plan 2045 and GAP, and the Planning Commission was to do so this week. Both plans are readable at cityofarcata.org.

The plans are being used to develop the draft Environmental Impact Report (EIR), which will be available for review Jan. 31, with a 45-day comment

period. Any comment will be incorporated into a final EIR, with responses.

In May, the council and Planco will hold final hearings prior to adoption.

As detailed in a staff report, on Dec. 12, the Planco recommended moving some policies from the GAP to the General Plan.

HUMBOLDT — In 2023, county government dealt with economic struggles, housing dilemmas and social issues.

Cannabis troubles

The county's cannabis industry saw another year of economic stagnation.

Last summer, the Humboldt County

Growers Alliance reported that California's wholesale cannabis price was \$765 a pound, down from a pre-slump peak of \$1,500 a pound.

A new twist to local farmers' troubles was debated throughout the year. Measure A — the Humboldt Cannabis Reform Initiative — will be voted on in March and seeks a

BLUE LAKE — With Herculean effort involving community outreach and fundraising events, cash-strapped Dell'Arte has exceeded its goals for getting back on stable financial footing.

Hit hard by COVID, then the end of pandemic-era grants and a slow return of audiences to live theatre, the acclaimed, Blue Lake-based theatrical organization had faced the horrify-

ing prospect of closure.

But, having exceeded its fundraising aspirations, Dell'Arte is poised to rebuild and relaunch for 2024 and beyond.

Your holiday tree and even lights deserve ethical disposal

CITY OF ARCATA
ARCATA – The Environmental Services Department reminds community members to recycle their old holiday trees and lights instead of sending them to the landfill.

Recycling a holiday tree rather than sending it to a landfill can reduce individual carbon footprint. To prepare trees for recycling, all decorations, including ornaments, hooks, garland, tinsel and lights must be removed, and flocked trees may not be recycled.

Arcata residents have several holiday tree recycling options, including:

Curbside Collection

- Recology Arcata customers who have opted-in for yard waste collection can place their holiday trees in their green waste bin and it will be picked-up.

Recology customers who have not opted-in for yard waste collection may give Recology a call at (707) 442-5711 to schedule a tree pick-up for a small fee.

Drop-off locations

- Humboldt Sanitation will be offering free holiday tree drop-offs until Monday, Jan.15.

After that date there will be an \$8 drop-off fee. Their facility is located at 2585 Central Ave. in McKinleyville. Call (707) 839-3285 for more information.

- HWMA’s Transfer Station offers free holiday tree drop-offs until

Wednesday, Jan. 17, after which there will be an \$8 fee. There is a bin located outside of their facility to drop-off trees. Commercial trees do not apply.

The Transfer Station is located at 1059 West Hawthorne St. in Eureka. Call (707) 268-8680 for more information.

- Steve Morris Logging, who took over for Wes Green last year, will accept holiday trees as regular green waste.

However, it does count towards City of Arcata residents’ no-cost drop-off allotment of 11 cubic yards per year.

If you are not a City of Arcata resident there will be a fee for drop-off.

Their facility is located at 1500 Glendale Dr. in Glendale. Call (707) 822-8537 for more information.

Options to recycle broken, old or outdated incandescent and LED holiday lights are unavailable locally.

Community members who would like to recycle their holiday lights have the option to box up and mail old lights to:

- Holiday LEDS Recycling, W227N6225 Sussex Rd, Sussex, WI 53089
- Visit holidayleds.com/free-light-recycling for more information.

For more helpful zero waste tips, visit cityofarcata.org or call the Environmental Services Department at (707) 822-8184.

Some little excitement was created around the Plaza Friday afternoon by the news that the dry squad under County Detective William McKay was conducting raids. The first place visited was the soft drink parlor of Caleb Nixon, and six officers entered the place, the front and back doors being guarded to prevent anyone from entering or leaving during the investigation. Bottles of grape juice, cider and bitters were seized and taken away for testing, the bitters being stored in a back room. – *Arcata Union, January 11, 1923*

Zoo lecture on our friend the Marbled Murrelet

SEQUOIA PARK ZOO
EUREKA – The Sequoia Park Zoo’s 13th annual Conservation Lecture Series continues on Wednesday, Jan. 17 at 7 p.m., hosted by the Conservation Advisory Committee and sponsored by the Sequoia Park Zoo Foundation.

Keith Bensen will discuss the nesting behaviors of the elusive and threatened marbled murrelets in his talk, titled, “25 Years of Conservation and Research on the Marbled Murrelets of Redwood National and State Parks.”

Lectures are hosted in-person at the Zoo and online through Zoom and Facebook live.

Redwood National and State Parks is home to one of the largest breeding populations of federally threatened, and extremely secretive, marbled murrelets.

These unique seabirds do something that no other temperate seabird does: they nest in the tops of old growth trees along the coast of the Pacific Northwest.

The giant redwoods of the parks provide a perfect home for murrelets, but nesting hundreds of feet in the air also makes them extremely difficult to study and conserve.

Keith Bensen will take you through the last quarter century (and more) of studying these elusive animals and trying everything imaginable to ensure their survival into the future.

Keith Bensen has been a wildlife biologist at Redwood National Park for the past 24 years. His duties include knowing where all of the rare animals of the park are, what they need, how they are doing, and in what ways park operations might cause them harm.

The 2023-2024 Conservation Lecture Series will be held in-person and remotely through Zoom.

The in-person lecture is located at the Sequoia Park Zoo’s Flamingo Room at 3414 W St. in Eureka, Calif.

In-person attendees can enter the Zoo through Gate C, located to the left of the main gate at the W Street crosswalk. Virtual attendees can watch on the Zoo’s Facebook page or on Zoom (where a free, registered Zoom account is required). The Zoom link will be available on the Zoo’s website at redwoodzoo.org and through the Zoo’s social media channels.

The event begins with refreshments and a Zoo update slideshow at 6:45 p.m.

The lecture starts promptly at 7 p.m.. Attendees are encouraged to ask the speaker questions after the presentation.

Zoo information begins at 6:45 p.m.; Lecture at 7 p.m.

Ring out the old, ring in... (checks notes) more of the old?

Six-story apartments

If you want 6-story apartments in your neighborhood, then say nothing.

The Gateway Area Plan started out as a gallant experiment. If Arcata made it easier for developers to build 5-, 6- and 7-story apartment buildings, would the increase in housing cause average rents to go down? If parking was limited to just one parking space for every four apartments, would people not own cars? If builders saved money because their projects were approved quickly, would they be convinced to spend those savings to benefit the community?

The Gateway concepts were, from the beginning, intended for just one area of Arcata – 70 blocks west of K Street that’s most ripe for redevelopment.

Arcata has four designated “infill opportunity zones” – Gateway, part of Valley West, north and south of the new 7-story Craftsman Mall dorms, and downtown including the Safeway shopping center.

Many Gateway policies could be useful there. And some Gateway policies would be good on a city-wide basis: Better bike lanes, wider and safer sidewalks, the “encouragement” of affordable housing.

David Loya, Arcata’s Community Development Director, has proposed something different. Let’s make Gateway into an “overlay

❖ LETTERS

zone,” he told us. And then, when we want to use Gateway policies elsewhere in Arcata, we could just create an “overlay zone” there and, presto, we’d be done. Instant approval for 5-, 6- and 7-story buildings. “If you put it in the General Plan, then it applies everywhere where there’s a trigger for it,” he said.

Included in the draft General Plan is rezoning all of Bayview, Northtown, upper I and J streets, and Sunset neighborhoods. Parts of Sunny Brae. Spear/Alliance is a possibility.

A new “overlay zone” can be created wherever a future City Council or Planning Commission wants. And the policies that were originally created for that very specific section of Arcata – the Gateway Area – would be applied in that new overlay zone too.

As Mayor Meredith Matthews put it, “I feel like we’re so close to the end with this Gateway Area Plan, I just want to sign it and start building some houses. And then, you know, we can talk about the rest of the General Plan.”

(She said “houses” but she meant “housing” – as there won’t be any new houses built in the Gateway Area.)

Yes, let’s complete the Gateway Area Plan – as it was designed and as it has been presented to the public over these past two years.

Let’s complete it. Let’s try it. Let’s see what new housing is built, and whether there are affordable rents and how the limited parking situation works out. Let’s see if the “Community Benefits” and the “Privately-Owned Public-Accessible Open Spaces” programs actually create benefits and parklets for people.

And in a few years, if we’re happy with how the Gateway Area Plan is turning out, we can amend the General Plan as required. If we want 5-, 6- and 7-story apartments spread out all over Arcata, we can do that then.

And so it begins

I have been contemplating my biennial rant about polls. Being a person of education and words, I can design any poll to give whatever answers the client wants. Make no mistake, all the polls you see are financed by some entity looking to push their own agendas. And then there are the poll takers. Humans are creatures that communicate in word, deed and expressions.

I have always encouraged anyone having trouble in their personal and professional life to read about body language. When I was an up-and-coming manager, we spent hours ob-

serving and talking about non-verbal communications. Poll takers exude, in their body stance and other physical clues, the answers they want for their polls. This means that the polls are meaningless. But politicians continue to ram them down the voters in our Democracy.

And while we are on the subject, we live in a Republic not a Democracy. We live in a country where we elect, democratically, our representatives in government. Our representatives go to congress to represent our interest. Yes, we normally expect them to represent and care for their constituents, but more often, these days, they act only in their own self-interest.

For example, George Santos and Kevin McCarthy. The worst part is that it takes complete and utter scandals to get rid of these people. And then they do not go quietly, but they do go with whatever money is left in their campaign war chests.

Please, please do not believe the polls. Read, discuss and follow what is going on around you and make up your own mind. Also, please do not answer any poll questions. It is truly none of their business. They are only asking so they can direct a bombardment of misinformation your way.

Have fun storming the castle.

Thank you for listening,

Girl Scouts of America presentation

Trinidad Civic Club hosted Girl Scout Redwood Service Unit Director Cheryl Kingham at last week’s meeting. Cheryl and her husband, Derek Kingham, Cheryl’s “souvenir from England” from when they met in the United Kingdom 44 years ago, have been involved with local Girl Scouts from Orick, Blue Lake, McKinleyville, Orleans, Trinidad and Hoopa for 21 years.

Derek received a Duke of Edinburgh award for the UK equivalent of Boy Scouts in England. The couple serve as leader support managers, emphasizing “courage, confidence and character” as primary Girl Scout

values.

Local teens are headed to England this year. Some of the recent projects have been sending books to Botswana and Swaziland for their “Africa Library Project” in places where there is no running water but which are encouraging literacy.

Other projects have been installing an ADA restroom at the Dow’s Prairie Grange, working with Granada Nursing Home, helping with a Eureka homeless program and a building restoration project, providing fishing line recycling at the harbor and bait shop, assisting with Trinidad Coastal Land Trust work projects and participating in flag raising ceremonies, including at the annual Trinidad Civic Club Memorial Ceremony in May.

Cheryl pointed out that three recent Secretaries of State, Condoleezza Rice, Madeline Albright and Hillary Clinton as well as NASA astronauts, were Girl Scouts.

The Girl Scout equivalent of the Boy Scouts Eagle Scout Award is called the Gold Award for the girls, and many aspire to achieve this level of community service. Humboldt County Dems endorse Clatworthy and Wilson for Supes, urge ‘No’ vote on Measure A

HUMBOLDT COUNTY DEMOCRATIC CENTRAL COMMITTEE
EUREKA – The Humboldt County Democratic Central Committee is pleased to announce its official endorsements for the March 2024 election.

After interviews with the qualifying candidates and measure proponents and opponents, the committee voted to endorse the following:

- Gordon Clatworthy for Humboldt County District 1 Supervisor
- Mike Wilson for Humboldt County District 3 Supervisor
- “No” on Measure A Cannabis Reform Initiative

Gordon Clatworthy for Humboldt County District 1 Supervisor

Gordon Clatworthy, a 40-year-old Coast Guard veteran and progressive candidate, brings a wealth of experience from his roles in the U.S. Coast Guard law enforcement and as an Emergency Medical Team leader. His background in supply management and overseeing federal funds positions him well for the challenges of public administration, including his experience with effective budgeting and resource allocation. Clatworthy’s platform focuses on addressing pressing community needs, such as housing, healthcare worker retention, and support for the farming community. Clatworthy’s vision is centered on innovative and sustainable policies that reflect the region’s richness and inclusivity. Learn more about Clatworthy’s campaign.

Mike Wilson for Humboldt County District 3 Supervisor

Mike Wilson is a stalwart advocate for Humboldt County. He earned a Master’s Degree in Environmental Systems Engineering from Cal Poly Humboldt, established a successful consulting business, and served 11 years on the Harbor Commission. Over the past seven years as county supervisor, Mike has collaborated with the community to address critical issues, such as the

development of affordable housing, the expansion of renewable energy, the enhancement of public transportation and trails, and the improvement of emergency and long-term mental health services. Emphasizing climate resiliency and sustainable land use, Supervisor Wilson has worked diligently to protect watersheds, coastline, farmlands, and public access. With a focus on collaboration with community leaders, unions, and Tribes, Mike remains dedicated to preserving vital ecosystems while promoting economic growth through well-paying jobs, job training opportunities, improved healthcare access, and increased public safety. Learn more about Wilson’s campaign.

“NO” on Measure A Cannabis Reform Initiative

In addition to the candidate endorsements, the Humboldt County Democratic Central Committee strongly advocates for a “No” vote on Measure A. Unlike the current County cannabis rules, this measure was created without community input or oversight and lacks substantial support from our local environmental advocates and enforcement agencies. If approved by voters, it would establish 38 pages of onerous new rules and restrictions. To update these rules and regs, it would require another expensive trip to the ballot box to make any changes. Measure A would have devastating impacts on cannabis farmers of all sizes, including the very smallest. Learn more about No on Measure A.

About Humboldt County Democratic Central Committee

The Humboldt County Democratic Central Committee (HCDCC) is dedicated to promoting Democratic values, supporting Democratic candidates, and engaging the community in meaningful political discourse.

With a focus on inclusivity, integrity, and progress, HCDCC strives to create a vibrant Democratic community in Humboldt County.

Kangas: Huffman serves ‘subset of wealthy interests’

**Julian Kangas
KANGAS FOR CONGRESS**

Once again, Jared Huffman has shown his contempt for Humboldt County and the North Coast at large. His office recently touted a \$2 million grant to study how to co-opt the decommissioning of the Potter Valley Project to steal water from the Eel River. Cynically referring to this proposal as a “two basin solution,” it’s clear Huffman is just catering to the rich interests of his Bay Area base.

Much like the new offshore wind craze, the foolhardy rush into massive hydroelectric projects during the 20th Century caused unimaginable environmental damage. The brunt of those impacts was always borne by our rural communities across the North State. Now that error is being corrected through dam removals, and we have an opportunity to recover the natural flows to the Eel headwaters.

But Huffman and his cronies have rolled out a plot that pits North Coast communities against one another. Under the false pretense of improving conditions for salmon and other fish to run, the proposal would instead divert much needed water flows from an already endangered Eel River. This sequestered water would undoubtedly end up irrigating massive and unsustainable vineyards and other Big Ag enterprises at the southern reaches of our district.

Huffman attempts to curry favor with users of the Russian River through promises of “restoring” its natural course, as if that will offset the ruinous impacts felt to the North. Yet it’s clear he has his thumbs on the scale to the benefit only of his biggest and wealthiest backers. It will only be a matter of time before there are more diversions to benefit big business, and less water for recreational users and wildlife on both rivers.

We have an opportunity on March 5 to empower our communities and make our voices heard. I’m running as an advocate for the entire North Coast, not just a small subset of wealthy interests. Let the rivers flow free as they should, and let’s bury the sordid legacy of these damned dams for good. Join me at kangas4congress.org.

STATE OF MCKINLEYVILLE 2024 The annual State of McKinleyville meeting takes place Wednesday, Jan. 17 from 8:30 to 10 a.m. at Azalea Hall, 1620 Pickett Rd. in McKinleyville. The free event is sponsored by the McKinleyville Chamber of Commerce and the public

is encouraged to attend. Speakers will include Lisa Dugan, chair of the McKinleyville Municipal Advisory Committee; Mary Keehn, founder of We Are Up; Ann Lindsay, president of Life Plan Humboldt; Cody Rogatz, director of aviation for the County of Humboldt;

and Pat Kaspari, general manager of the McKinleyville Community Services District. The chamber is billing the event as "a forum to foster informed and engaged dialogues." For more information, visit mckinleyvillechamber.com

BOX 6875 SANTA ROSA, CA 95406-0875 By: ROBERT CULLEN, President NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (800) 683-2468 or visit this Internet Web site: www.servicelinkASAP.com, using the Trustee Sale number assigned to this file, T.S. #23126-PR. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. NOTICE TO TENANT: You may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the

trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call (800) 683-2468, or visit this internet website www.servicelinkASAP.com, using the file number assigned to this case 23126-PR to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid, by remitting the funds and affidavit described in Section 2924m(c) of the Civil Code, so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder", you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. The petition requests authority to administer the estate under the Independent Administration of Estates Act. (This authority will allow the personal representative to take any actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

If you object to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

If you are a creditor or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) **four months** from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the California Probate Code, or (2) **60 days** from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. **Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.**

You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a formal Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. Statement from the photographer
My show is titled *Sea Level Rise: North Unit of the Arcata Marsh*. This area contains five marshes, four ponds, one lake, a boat launch, 3.5 miles of trails, one mile of City access streets, and an interpretive center.
The Marsh is very much on the frontline for sea level rise

impacts this century. Less than a foot of sea level rise during a 2005 New Year's Eve extreme water event (9.6 feet at NOAA's North Spit tide gauge), caused by a King Tide and storm surge, resulted in Governor Schwarzenegger declaring a state of disaster on Humboldt Bay. That is less than a foot higher than our mean annual maximum tide (average King Tide) of 8.8 feet!
The diked shorelines on Humboldt Bay are extremely vulnerable to a small sea level rise of just one to two feet. The North Unit,

under existing shoreline conditions, is vulnerable to sea level rise of 1.6 feet (0.5 meter) to 3.3 feet (1.0 meter), which we are most likely going to experience in the near term and this century.
I have lived in Humboldt since 1975. I am a retired environmental planning consultant who has specialized in sea level rise vulnerability assessments and adaptation planning on Humboldt Bay. I am also an avid kayaker who has circumnavigated all 102 miles of Humboldt Bay's shoreline, and a landscape photographer.
